Address intubated patient risks—
with confidence.

Every patient dependent on a ventilator for respiration is vulnerable. Ventilator-associated risks can result in increased length of stay and increased hospital costs.¹

RISKS
of intubated patients

VENTILATOR-ASSOCIATED EVENTS such as pneumonia, due to limited access to oral care.

ORAL PRESSURE ULCERS from the tube resting too long in one place.

UNEXPECTED TUBE OCCLUSIONS caused by the patient.

CLINICAL BENEFITS

EASES ACCESS TO THE ORAL CAVITY to optimize oral care.

HELPS PREVENT FORMATION OF LIP ULCERS as part of a multifaceted approach.²³

Used at over 3,700 hospitals in the United States

In thousands of hospitals around the world, experts and professionals depend on our AnchorFast products to help improve patient care.

20 years of demonstrated quality

Hollister has a long history with endotracheal tube securement devices. Clinicians depend on its superior performance and quality, making AnchorFast products overwhelmingly the best-selling endotracheal tube securement devices on the market.

Ongoing innovation driven by customer feedback

Innovation happens when we listen to the people who use our products. What they say matters to us. It’s why AnchorFast products continue to evolve to meet your needs.

“The AnchorFast Guard tube fastener can help bring a new level of confidence to the ICU.”

— Respiratory Care Therapist

“IT’s important to look for vendors who have an interest beyond just the transaction. Hollister is more than a supplier, they’re a partner to respiratory care practitioners in our continuous quest for advancement in patient care.”

— Respiratory Care Therapist
