Collect Supplies
Gather pouch, scissors, pen, water, and gauze, cotton balls or tissue.

Prepare the Pouching System
1. Measure the stoma using a stoma measuring guide before every barrier application.
2. Trace the determined barrier size opening onto the skin barrier. The skin barrier should fit where the skin and stoma meet. Verify that no skin is showing between the skin barrier and the stoma to help prevent leakage and skin irritation.
3. Pull the pouch film away from the skin barrier. Using small curved scissors, carefully cut an opening in the skin barrier to match the pattern. Do not cut beyond the line on the release liner. Do not puncture the pouch.

Remove Used Pouching System
4. Remove the release liner from the skin barrier. Set aside with adhesive facing up.
5. Carefully lift an edge of the skin barrier and peel downward, gently pushing the skin away from the skin barrier. Properly dispose of used pouch. Do not flush down toilet.

Clean and Dry Skin
6. Clean the skin with water or with gentle soap as recommended by your healthcare professional. Rinse and dry thoroughly. Do not use oils, powder, lotion, or lotion-type soaps on the skin.

Apply the New Pouching System
7. Center the skin barrier opening over the stoma.
8. Apply gentle pressure to the skin barrier for about a minute for best adhesion.
9. Close bottom of pouch. If using a drainable pouch, close the Lock ’n Roll microseal closure at the bottom of the pouch. Fold up three times until the plastic fasteners meet. Press firmly from the center to the outer edges along the closure strip.
OSTOMY CARE TIPS

Pouchkins One-Piece Pouching System

Using Accessories (As recommended by your healthcare professional)

- Paste may be applied to the skin barrier before application.
- Rings can be used to fill in skin areas near the stoma as a substitute for paste.
- You may use stoma powder when the skin is eroded and moist.

Tips

- The skin around the stoma should not be irritated or broken. If the skin is irritated, contact a WOC/ET Nurse or ostomy specialist.
- The Pouchkins stickers (included in each box) can be placed on the pouch to identify the date and time the pouch was changed.
