Hydrofera Blue Ready

Wound Site Preparation

1

Cleanse the wound bed in accordance with established procedures.

Select Size and Apply

2

Select the appropriate dressing size to ensure the dressing will cover the entire wound.

Secure

3

Secure the dressing using a bandage or tape.

Wear Time

4

Dressing can be left in place up to 7 days, depending on the exudate level and clinical conditions of the wound.

For more information, see product instructions included with the product.

Ready. Set. Go.

Simply set in place and secure; no hydration required.

Use When:
- Antibacterial properties are needed to help prevent infection
- Absorption of moderate to heavy levels of exudate is required
- Compression therapy is needed
- Total contact casting is needed

Application:
- Simply place and secure; no hydration required
- Secondary dressing not required
- Tape or wrap required for fixation

Hydrofera Blue Ready foam can be used in conjunction with compression wraps and total contact casting.

Caution: Federal (USA) law restricts this device to sale by or on the order of a physician (or properly licensed practitioner).
