## HCPSC Codes Disclaimer

The reimbursement information provided herein is intended to provide general information concerning coding of Hollister products only. Hollister does not guarantee coverage or payment for any products. The ultimate responsibility for proper coding, satisfying reimbursement requirements, and obtaining reimbursement remains with the provider. Coding and coverage policies and guidelines are complex, can vary from one carrier or region to another, and are updated frequently. Providers should check with their local carriers or intermediaries often and should consult with counsel, a reimbursement specialist, and/or the DMECS website for any coding, coverage, reimbursement, or billing questions.

*HCPSC codes shown in this Product Catalog are current as of January 2020.*

## Latex Statement

The specifications for the Hollister Continence Care products listed below include natural rubber latex as a component; our suppliers add natural rubber latex as part of the production process. If a Hollister product(s) found in this catalog is not listed below, the specification for that product(s) and packaging does not include natural rubber latex as a component, and our component suppliers do not add natural rubber as part of their production process.

## Current Stock Numbers:

9106	9206
9107	9207
9108	9208
9109	9209

Prior to use of ALL continence care products, be sure to read the Instructions for Use for information regarding Intended Use, Contraindications, Warnings, Precautions, and Instructions.

With 100% No Touch Protection,  
whatever you touch won't touch  
VaPro catheters.

The protective tip and sleeve of VaPro catheters have been tested and have been shown to prevent the transmission of bacteria that may cause UTIs. Don't settle for anything less than 100% No Touch Protection.

## DID YOU KNOW...

VaPro No Touch hydrophilic intermittent catheter offers the right balance of ease of use and protection:

- Prehydrated and ready to use
- Protective sleeve allows for the catheter to be gripped anywhere and is proven to prevent the transmission of pathogens that may cause UTIs
- Protective tip helps shield the sterile catheter during insertion from bacteria located within the first 15mm of the distal urethra
- Packaging is designed with finger holes to be easy to open
- VaPro Plus catheter has an integrated 1000ml collection bag for catheterization at home or on the go
- Offered in pocket-size packaging for easy transportation and discreet out of home usage
