Onli™ Coudé Intermittent Catheter Simple & Comfortable

Experience the ease of use and comfort of our HydraBalance™ lubricating technology

Made with naturally sourced ingredients, its unique combination of hydrophilic coating and hydration fluid creates a smoothly gliding cushion that helps protect the urethra, and provides an effortless insertion and withdrawal for a more confident and natural catheter experience.

Key features of our HydraBalance™ lubricating technology:

- Smooth and comfortable on catheter insertion and withdrawal.
- Helps protect the urethra from potential micro trauma and Urinary Tract Infections.
- Designed to capture the right balance of naturally sourced ingredients for as natural of an intermittent catheter experience as possible.

Onli™ coudé intermittent catheters are designed for simple, everyday use:

Onli™ coudé catheters are designed to provide a hassle-free, mess-free experience and are ready-to-go to help you feel comfortable and confident, every day.

Simple.

- Ready to use right out of the package
- Packaging is designed with two finger holes to be easy to open
- Ergonomic gripper provides an easy, touch-free, and a more controlled insertion experience

Comfortable.

- HydraBalance™ lubricating technology provides smooth and comfortable catheter insertion and withdrawal
- Two optimally designed, smooth, rounded eyelets
- HydraBalance™ lubricating technology helps protect the urethra from potential micro trauma and Urinary Tract Infections

Coudé.

- The coudé tip helps maneuver around tight bends in narrow urethras and is suitable for males who have an enlarged prostate
