

100% No Touch Protection

Discreet Design

Coudé Tip

VaPro Pocket™ catheters no touch protection and discretion is now available with a coudé tip.

VaPro Pocket™ Coudé No Touch Intermittent Catheters provide 100% No Touch Protection with a protective tip and sleeve, and they are easy to use, with a coudé tip that is designed to help maneuver around the tight bends found in a narrow urethra. The pocket-size package design is discreet - a quality users prefer.¹

Consider VaPro Pocket™ catheters right from the start.

Discreet packaging

VaPro Pocket™
No Touch Intermittent Catheter

Making a difference in the journey of life.

Start right here for protection, ease of use, and discretion.

VaPro Pocket™ coudé catheters: 100% No Touch Protection

Protective tip

- Helps shield the sterile catheter during insertion from bacteria located within the first 15 mm of the distal urethra
- Helps reduce the risk of carrying bacteria into the urinary tract

Protective sleeve

- Allows for catheter to be gripped anywhere
- Provides a barrier to the catheter to help keep pathogens away
