Personnel Precautions: For large spills: Evacuate area and keep unnecessary and unprotected personnel from entering the spill area.

Methods and materials for containment and cleaning up

Methods for Containment: For large spills: Contain spills with an inert absorbent material such as soil, sand or oil dry.

Methods for Cleanup: For large spills: Remove all sources of ignition. Collect the wipes with a non sparking tool and absorb or wipe any residual liquids. Place in a suitable container for proper disposal. Use appropriate protective apparel as described in Section 8. Avoid contact with skin and eyes.

Environmental precautions

Environmental Precautions: For large spills: Avoid runoff into storm sewers, ditches, and waterways.

Section 7: Handling and Storage

7760

Precautions for safe handling

Handling: Use with adequate ventilation. Avoid breathing vapor, aerosol or mist. Material will accumulate static charges which may cause an electrical spark (ignition source). Use proper grounding procedures.

Special Handling: Do not re-use empty containers.

Hygiene Practices: Wash thoroughly after handling. Avoid contact with eyes.

Conditions for safe storage, including any incompatibilities

Storage: Store in a cool, dry, well ventilated area away from sources of heat, combustible materials, direct sunlight, and incompatible substances. Keep container tightly closed when not in use.
