Section 4: First Aid Measures

Eye Contact: Immediately flush eyes with plenty of water for at least 15 to 20 minutes. Ensure adequate flushing of the eyes by separating the eyelid with fingers. Get immediate medical attention.
Skin Contact: No effects anticipated. If symptoms persist, call a physician.
Inhalation: If inhaled, remove to fresh air. If not breathing, give artificial respiration or give oxygen by trained personnel. Seek immediate medical attention.
Ingestion: If swallowed, do NOT induce vomiting. However, vomiting may occur. Call a physician or poison control center immediately. Give plenty of water to drink. Never give anything by mouth to an unconscious person.

Section 5: Fire Fighting Measures

Flammable Properties: Flammable Aerosol.
Flash Point: -8°C (18°F)
Flash Point Method: Closed cup.
Auto Ignition Temperature: 310°C (590°F)
Lower and Upper Flammable/Explosive Limit: 0.5-21.8 vol %
Fire Fighting Instructions: Evacuate area of unprotected personnel. Use cold water spray to cool the exposed containers to minimize risk or rupture. Do not enter confined fire space without full
Section 6: Accidental Release Measures

Personnel Precautions: Evacuate area and keep unnecessary and unprotected personnel from entering the spill area. No smoking.

Environmental Precautions: Avoid run off into storm sewers, ditches, and waterways

Methods for containment: Contain spills with an inert absorbant material such as soil, sand, or oil dry.

Methods for cleanup: Remove all sources of ignition and collect the wipes with a non sparking tool and absorb or wipe away any residual liquids. Place in a suitable container for proper disposal. Use appropriate protective apparel as described in Section 8. Avoid contact with eyes.

Other Precautions: Pump or shovel to storage/salvage vessels.

Section 7: Handling and Storage

Incompatibilities: Avoid contact with oxidizing and reducing agents.

Handling: Read the label before use.

Do not mix with other chemicals.

Use with adequate ventilation. Avoid breathing vapor, aerosol or mist. Material will accumulate static charges which may cause an electrical spark (ignition source). Use proper grounding
Storage: Store in a well-ventilated area away from sources of heat, combustible materials, direct sunlight, and incompatible substances. Keep container tightly closed when not in use. Protect from sunlight. Do not expose to temperatures exceeding 50°C/122°F.

Special Handling Procedures: Hazardous liquid or vapor residue may remain in emptied container. Do not reuse, heat, burn, pressurize, cut, weld, braze, solder, drill, grind, expose to sparks, flame, or ignition sources of empty containers.

Hygiene Practices: Wash thoroughly after handling.

Section 8: Exposure Controls, Personal Protection – Exposure Guidelines

Engineering Controls: General ventilation is sufficient if this product is being used for its sole intended purpose.

Eye/Face Protection: No special protective equipment required under normal conditions of use.
